Christchurch is a school of sanctuary

The Healing Classrooms programme aims to support schools to develop inclusive and nurturing learning spaces where refugee and asylum-seeking students can gain the necessary academic, social and emotional skills to develop their full potential.

We have a sanctuary shed in our yard where children can go during playtime and lunch times to relax, reflect and feel safe.

In 2023, we worked very closely with the (IRC) International Rescue Committee, and all staff were trained in how to support refugees and trauma informed learners in the classroom.

We are very happy to be receiving this award today. Diolch pawb for listening and thank you all for joining us on this special day.
