

Eco Action plan

1) Save Energy – Turn all lights off when room is empty. Turn my computer, tv and Xbox off when I am not using them. Make sure I turn off all plugs when I am out of the house. I will look at the bills.

2) Reduce plastic waste - Try to buy less food in plastic. Use a reusable water bottle. Reuse plastic bags when shopping. Use metal or paper straws when I have a drink. I will check our pink plastic recycling bags and compare.

3) Save water – Have a shower instead of a bath. Turn the tap off when you are brushing your teeth. Wash your clothes less. I will check water bills.

Commented [NS1]: Excellent Eco action plan. Can you collect data to see if your are wasting less plastic?
